Latex lenses cover	
<ul style="list-style-type: none"><li>• 0.5mm black latex</li></ul>	50\$

Note: All prices are in Canadian dollars

More pictures and details are available below.

The mask is designed in such way that the hollow trough dick shaped gag can be tighten on the back of your head. You can adjust the tightness level if the gag as you wish. When the gag is tight enough (deep enough into your mouth) it is nearly impossible to block the flow of liquid coming. For less experienced players or a more casual play. It is also possible to easily remove the gag. You'll then have only a small tube coming into your mouth and will be able to press the tube with your lips, teeth or tongue to control the flow as you wish.

The funnel is attached to the gas mask with a snap. It can easily be unsnapped during play for the convenience of the top and snap back in place once he emptied himself until the next use.

The latex lenses cover completely blind the wearer. They are a bit tricky to put on at first, but stable enough to not fall off by themselves during play. I recommend to always remove the lenses cover before storing the mask.

I will use PayPal services and send a bill for every transaction stating the conditions of the sell agreed. This will ensure safety of the transaction for both you and me.

When I order the parts to make one, it takes 4 to 11 weeks for me to receive it (I generally receive it under 5 weeks, but I do not have any guarantee that I will). In consequence, if you want to buy one, there might be up to about 2 and a half months before I can send it to you.

**Note:** I do not currently have any more pictures of the funnel mask. I will take more pictures upon my next production, but feel free to ask any questions about it!

If you have any more questions just ask 😊

## Funnel options

### Black plastic

- Larger funnel
- Handle oriented toward the mask by default but can be oriented in any direction upon special request. Note that the orientation of the handle is fixed once the mask is assembled and delivered to you.

### Silver metal

- Slightly smaller funnel

# Latex lenses cover to blind the wearer

Front view

Only the lenses cover

## Top of the gasmask view

**Note:**

The lenses cover are very similar, but different. There is a left one and a right one. The kind of arrow showed in the picture need to point outside of the mask as shown, otherwise you'll have a hard time trying to make them fit properly.

## Latex hooding option

Sizing guide (cm)			
	S	M	L
head circumference	53-55	55-58	58-62
neck circumference	32-36	36-40	40-44

Note:

If you are in between two sizes, I suggest you go for the next size up otherwise your jaw may be too restricted to give blowjob.

It is currently impossible to have it made it to measure.

Only black latex in 0,6mm thickness is possible at the moment.

It is possible to put a locking zip for 15\$ extra.

This option add 1 to 4 weeks of production time.

Hooding made possible with the collaboration with Slash Rubber. Have a look at his site if you are looking for rubber clothing 😊 <https://www.slashrubber.com/>

## Shipping approximation

Region	Price in Canadian dollar
Canada	40
US	50
Rest of the world	75

Note:

For orders outside of Canada customs fees may need to be paid to the agency at the reception.
