The silicone insert is very easy to put on and off for cleaning but stay very stable during play. The blowjob mask is a one size fits all. The silicone insert is hollow, so the dick goes through and end in the mouth of the wearer. The mask is designed in such way that the inside end of the silicone insert slightly press on le lips of the wearer. The silicone insert is not restricting the lips in any way.

The latex lenses cover completely blind the wearer. They are a bit tricky to put on at first, but stable enough to not fall off by themselves during play. I recommend to always remove the lenses cover before storing the mask.

The silicone dildo can act as a gag and fit under the cap of the silicone insert. Once the cap is over it, it is locked inside the mask as long as the wearer is not able to rotate the cap... or someone else remove it. The 5" dildo slightly goes in the tip of the mouth and the 7" one really imposes its presence. Never use silicone lubricant on the dildo and never store the dildo inside the silicone insert during storage.

I will use PayPal services and send a bill for every transaction stating the conditions of the sell agreed. This will ensure safety of the transaction for both you and me.

When I order the parts to make one, it takes 4 to 11 weeks for me to receive it (I generally receive it under 5 weeks, but I do not have any guarantee that I will). In consequence, if you want to buy one, there might be up to about 2 and a half months before I can send it to you.

Note:

The lenses cover are very similar, but different. There is a left one and a right one. The kind of arrow showed in the picture need to point outside of the mask as shown, otherwise you'll have a hard time trying to make them fit properly.

Never use silicone lube with the dildo.

Latex hooding option

Sizing guide (cm)			
	S	M	L
head circumference	53-55	55-58	58-62
neck circumference	32-36	36-40	40-44

Note:

If you are in between two sizes, I suggest you go for the next size up otherwise your jaw may be too restricted to give blowjob.

It is currently impossible to have it made it to measure.

Only black latex in 0,6mm thickness is possible at the moment.

It is possible to put a locking zip for 15\$ extra.

This option add 1 to 4 weeks of production time.

Hooding made possible with the collaboration with Slash Rubber. Have a look at his site if you are looking for rubber clothing 😊 <https://www.slashrubber.com/>
